

TRIPLE KICK

NITROGEN MANAGEMENT

Triple Action Urease & Nitrification Inhibitor for Urea & UAN

- Prevents ammonia volatilization, nitrate leaching & nitrification
- Stimulates beneficial bacteria improves N uptake
- Reduces salt stress caused by high N rates in the side band

Active Ingredients

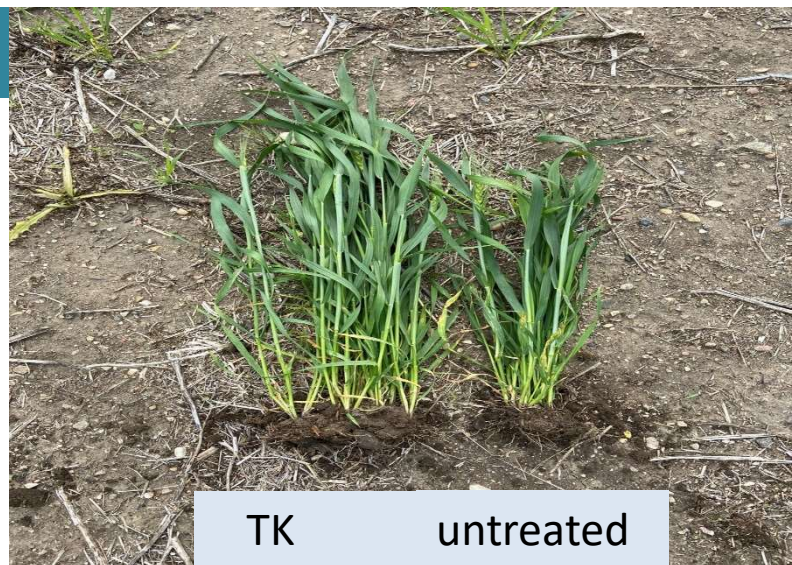

- NBPT-20%, DCD 20% with a bio-stimulant co-pack

Formulation & Application

- Easy to use liquid with efficiency at a low rate
- Fast drying, noncorrosive, with a low odor
- UAN 1-1.5L/1000kg, Urea 1.5-2.0L/1000kg

"First my neighbor had twice the N left over with Triple kick last year, and now our wheat is looking much healthier with a better root system this year with Triple kick.

Travis Declerq- Watrous, Sk
